FORMERLY D. CRAWFORD & CO.

Washington Avenue and Sixth Street "Rome Was Not Built in a Day."

This vast stock of Crawford's, amounting to over half a million dollars, with over \$100,000 in transit added, will not be sold in a few days, but will take many weeks to do it. Many of the reserve stocks have not been put on sale, owing to lack of room. These goods will be opened and put on sale from day to day as the space will permit. Some goods were marked so low dealers picked them all up. Others were not marked low enough and are being marked still lower. When old goods are sold out new ones take their place. We have four resident buyers in New York who are daily selecting for us new novelties as quickly as they appear on the market. So we are not alone selling you the Crawford stock under price, but we are selling all the new things at as low a price as anywhere in the United States. Come when and how you will, you will always find attractions here.

THE MAY CO.

N. B .-- In view of the great difference between former prices and present prices quoted in this advertisement, due to the fact that we are determined to unload all holiday and heavy winter goods, we would say that many of the goods are not now worth the former prices marked on them. New staple goods which when sold out must be replaced with similar goods are marked down little if any.
